

Josefi-Bock

The Rentberger Brewery nuns' patron saint is St. Joseph and to commemorate his sainthood they brew this seasonal Bock in his honor. The beautiful light red color is a product of the precise blending of 50% light and 50% dark malts. It takes 3-5 months of lagering to produce this perfect beer. A time well spent as attested by the slightly sweet taste perfectly balanced with a touch of bitterness. At 6.9% alcohol this strong beer is surprisingly easy to drink. The women in our town love this beer and there is usually a proliferation of babies produced during the "stark bier saison."

ABV 6.9%
