Schönramer Family Brewery

[SHURN-rahm-ur]

A mouthful of great beer.

Alfred Oberlindober is the ninth generation of his family to run their brewery in the tiny town of Schönram next to the Bavarian mountains. Since 1780 the Schönramer brewery has perfected its beers and that tradition has been aptly placed in the hands of an American!, Eric Toft, a PhD graduate of the renowned University of Weihenstephan.

Schönramer Surtaler Light

ABV 3.4%

Introducing the new champion of Light beer, Schönramer's Surtaler Light. Tastes robust like a heavyweight beer but sports **reduced calories**. But beware, this is no lightweight beer for it packs 3.4% alcohol wallop and delivers the sophisticated taste of 225 years of brewing tradition from the Schönramer Brewery, outclassing all pretenders.

Schönramer Pils

ABV 5.4%

This full-flavored special pils is deceptively pale in color but strong in alcohol (5.4%) while being a touch sweet to the palate. The mouth-watering bouquet comes from our exclusive use of Aroma Hops that don't sting the tongue. Our organically farmed Barke malt is the rarest and most expensive in the world.

Schönramer Gold

ABV 6.0%

A robust special lager with a slight scent of violet and rose buds and a touch of sweetness on the finish. Pale gold in color but strong in alcohol, the Gold is perfect for special occasions. Our regular customers drink it daily, however, and consider it a true statement of our handmade quality.

Schönramer Weiss Beer

ABV 5.6%

With a hint of hazelnuts taste, this special occasion wheat beer is the first new recipe for more than 225 years at the Schönramer Brewery. Festweisse is hand-brewed separately in its own tanks using the best wheat malt available and Hallertauer Hops. Of course, like all of our beers, we use the open fermentation process that enables us to visually monitor our beers to maximize nuances of character.
